Unit 4:- Integration and its applications:

Topics:

Improper Integrals: Improper integrals of first and second kind and its convergence (pg. 1.48 J&I)

Problems:

- Exercise 1.3, Q. 1 to 20 (page 1.76, J&I)

Topics:

Beta and Gamma Functions: Definition, Some identities of Gamma Functions, Some identities of Beta Function (1.44 pg. 1.60 J&I)

Problems:

- Exercise 1.3, Q. 26 to 39. (page 1.76, J&I)

Topics:

Length of Curves: Arc length of Cartesian, parametric and polar curves, intrinsic equation of parametric and polar curves.

Problems:

- Exercise 52, Q. 1 to 15. (page 285, CP)

Topics:

Volumes and surface area of solids of revolution.

Problems:

- Example 5.3, Q1 to 22 (Page 291, CP)
